

2025 Cart Policy

Dear Members & Public Players,

Due to the limited number of golf carts available, we ask that all members and public players understand that when reserving a golf cart, they are securing a **seat** on the cart rather than reserving the entire cart. This adjustment will help us utilize our carts more efficiently throughout the season, allowing for increased availability on a daily basis.

Key Policy Points:

- **Cart Reservations:** The club policy allows for a maximum of **2 carts per tee time** for daily play. Exceptions will be made only during corporate events, where additional carts may be required.
- **Sharing Carts:** For example, if a threesome reserves 2 carts and another individual joins the group, the single player should be accommodated in the **second seat** of the cart that has an available spot.

This policy is designed to ensure fair and efficient use of our limited cart resources, especially during peak times.

We appreciate your cooperation and understanding as we move into the 2025 season at the Skeena Valley Golf & Country Club.

Sincerely,
Skeena Valley Golf & Country Club
Management
